

PROFESSIONAL EXPERIENCES

SALESFORCE – SENIOR PRODUCT DESIGNER

Oct 2022 – Present

- Led the end-to-end Product UX design process on multiple Enterprise, SaaS B2B and B2C product initiatives from Phase 0 - 1, concept to design, delivery and execution improving user satisfaction by 75% through research, design, and usability testing.
- Redesigned Business Process workflow for Aerospace Defense industry and defined user needs, transforming complex requirements into intuitive interfaces, boosting users tasks efficiency by 90%.
- Stakeholder Engagement and Cross-Functional Collaboration with teams (including Research, UX, Product and Engineering) to develop and execute a product roadmap, increasing product adoption by 80%.
- Defined Product Vision & UX roadmaps for Aerospace Defense, Construction and Automobile industries, aligning business goals with usability goals and driving improvement in project efficiency.
- Managed project features independently and created UX requirements to guide designs.
- Designed interfaces for Salesforce Expertise adhering to Salesforce guidelines, configuration and reducing custom solutions.
- Created AI-Integrated Designs incorporating Salesforce AI capabilities, to improve user productivity with AI-powered design solutions.
- Mentored and led UX designers, fostering a collaborative environment that enhanced design quality, team output, and efficiency.
- Design System Specifications: Produced detailed design specs across platforms (web, mobile, ios) leveraging figma for design systems, components, design tokens and collaborated with developers, ensuring feasibility, high-quality execution and faster time-to-market.
- Championed human-centered design, integrating quantitative, qualitative research and validation insights to reduce usability issues.
- Developed user journeys, process flows, user flows and experience visions, influencing feature prioritization and boosting retention.
- Produced 100+ Wireframes designs & Prototypes for companies like Bombardier, Sunbelt Rentals, TireRack and Mars, optimizing Salesforce-based UX and reducing custom development needs.
- Presented design concepts to stakeholders, securing buy-in and reducing design revisions resulting in 5-star CSAT scores.

PERATON – SENIOR PRODUCT DESIGNER / PRINCIPAL UX DESIGNER

Mar 2021 – Sept 2022

- Led and mentored a team of 3 designers to improve team efficiency.
- Created UX/UI designs for products servicing public sector, defense sector (SSA) improving overall product adoption.
- Create scenarios for test plans, recruit test participants, create test scripts, facilitate usability testing, create findings reports for metrics, evaluations, and recommendations.
- Communicate design and technical topics with the customer on a daily basis.
- Successfully collaborated with design teams, engineering, and product partners to deliver complex end-to-end user experiences, increasing the usability of product by 85%.

NORTHROP GRUMMAN – PRINCIPAL UX DESIGNER

Sept 2019 – Mar 2021

- Produced user flows, personas, journey maps and screen flows. Designed 100+ wire-frames and prototypes providing UX/UI guidance for products servicing the Public Sector & Defense Sector for millions of users.
- Led the user experience of customer’s product.
- Worked with cross-functional team on daily basis and mentored and provide guidance to other UX colleagues.
- Conducted user research and service blueprint for customer.
- Derived business processes, analyzed user needs, requirements definition, designed browser-based interfaces, and conducted usability testing.
- Elicited business goals and user needs from stakeholders.
- Documented user requirements, screen designs, and design recommendations.
- Communicated design and technical topics with the customer on a daily basis.
- Presented design artifacts and deliverables to customers.

AQUENT – UX DESIGN LEAD

Mar 2018 – Aug 2019

- Designed intuitive wire-frames, prototypes, and mock-ups for B2C clients in the Education Sector.
- Conducted workshops and led brainstorming sessions, focus groups, and journey mapping sessions to define requirements, user flow diagrams for Editorial and Interactive Journalism portals.
- Facilitated client’s product visions by researching, conceiving, wire-framing, sketching, prototyping, and mocking up user experiences for digital products.
- Lead and perform user research, A/B and Multiple Variant testing.
- Make strategic design and user-experience decisions related to core, and new, functions and features.
- Collaborate with cross-functional teams that include representatives from Editorial, particularly Creative and Web Production, and contribute to best-in-class user-experience implementations/practices.
- Define, architect and implement UI/UX solutions based on stakeholders’ requirements and designs.
- Implement UX best practices to design and develop solutions, and a mobile-first and responsive design.
- Developed mobile and cross-browser compatible responsive front-end interfaces using JavaScript, JQuery, HTML5, CSS3, and Bootstrap Framework.
- Produced 508/WCAG compliant designs, making digital products inclusive and accessible to all editorial content.

SORTERBOX – UX DESIGN LEAD

Mar 2016 – Dec 2017

- Designed B2C portals for human resources and talent acquisitions.
- Work with engineers to build responsive web portals geared towards talent auditioning, hiring and recruitment for corporate organizations.
- Created wire-frames and fleshed out wire-frames into web pages by using CSS, HTML and JavaScript to create human resources web applications for a better hiring and recruitment experience.

RODAH INTERNATIONAL LTD – UX DESIGNER

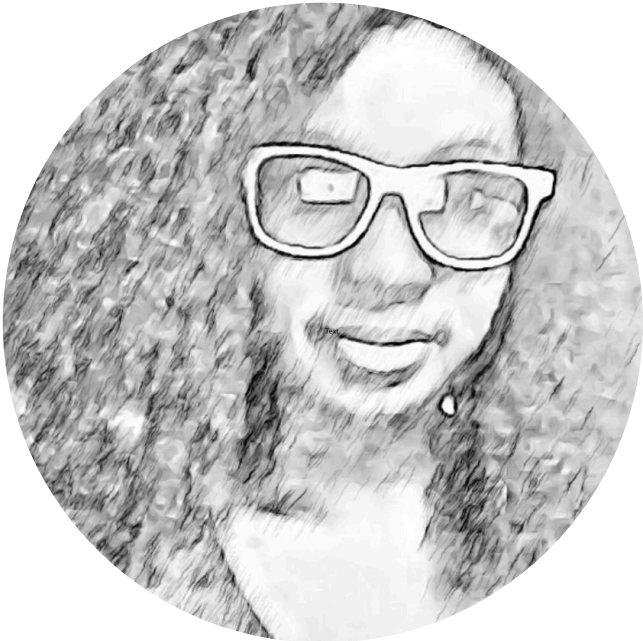

Dec 2015 – Mar 2016

- Designed, developed, and launched web portals used for investment trading platforms.
- Translated low and high fidelity wireframes into user interface design specifications for a variety of web portals.
- Leveraged HTML and CSS for Front End Development to implement interaction in product.
- Designed high-impact, user-centered pages that conveyed company’s brand, value proposition and industry-leading functionality.

TIMBAOBJECTS TECHNOLOGIES LTD – UX DESIGNER & STRATEGIST

Dec 2010 – Jul 2015

- Designed, developed, and launched responsive web user interfaces for organizations like UNICEF, World Bank, World Health Organization.
- Designed, developed, and launched web and mobile page user interfaces, including those used for election data monitoring, and birth registration statistics across country level.
- Increased page usability applying knowledge of user-centered design methods, human-computer interaction and industry best practices to drive useful and usable interface design solutions.
- Designed navigation, user flows, screens and controls. Created interactive prototypes and conducted usability testing to identify design patterns and produce style guide.
- Successfully redesigned, coded and re-branded websites using Sketch, HTML, CSS and JavaScript.
- Front End Development of high traffic data driven web application using visualizations and mapping for storytelling.
- UI/UX development to create a seamless customer experience for high traffic monitoring websites through desktop, and mobile interfaces.
- Built templates used for high traffic and complex data driven websites.

Joy McLeod

Principal UX & SR. Product Design

ABOUT ME

As a Senior UX Product Design Lead, I have led multiple product initiatives for B2B and B2C from concept to delivery, crafting intuitive and user-friendly product solutions across various platforms. With over a decade of experience, I bring a deep expertise in product design, human-centered design, seamlessly blending creativity and strategy to solve complex problems and enhance user experiences.
